Leading with leadership strategies

Kosher tissue products Pvt Ltd is very potential, evolving quickly and is determined to play a dominant role in the market for paper tissue products. Our product range encased in our brands (Kosher, Kosher GoldMark and Regal) is comprehensive yet ever evolving. We cater to both home and institutional segments - through an evolving network of dealers, distributors, and retail partners. Kosher range of products is also available through popular on-line shops and through our own online boutique.

We believe in research backed decisions, smart operations and in working with certain aggressiveness in making way for ourselves in the markets. We endeavor to evolve our brands with products and marketing strategies that would fascinate the consumers.

We choose to assume leadership through establishing ideal approach and standards as we create the growth path for ourselves. In expanding the market, in general and for ourselves, we shall continue to demonstrate leadership with appreciable product innovations and with very smart marketing initiatives.

We are on a mission to build brand Kosher with exceptional values and thus take it to altogether higher level of operations. We are looking at fast paced growth and are aiming high with large revenue targets across our product lines in evolving as a popular and reputed national brand. We are determined to achieve progress with true innovations and leadership initiatives.

Message from the Managing Director

We believe, paper - which is largely made from trees which provide the life essence for the life on earth, is being rather recklessly used - contributing directly to the alarming rate of depletion of trees.

We believe, the need to act towards bridging the huge shortfall from sustainability levels both on account of ecology and resource is very urgent. We believe, the ideal approach is to put greater thrust on resource renewal duly supplemented with judicious consumption - which puts the responsibility to act - vastly with the consumers.

Though the pulp that is converted into tissue paper is made from trees and plants which are consciously replenished from structured resource renewal program world over, we intend to work on initiatives that would create awareness about the alarming situation otherwise and develop structured social programs that would facilitate consumers - individually as also collectively - help contribute towards perpetual regeneration of life giving trees and plants.

Shashi Kant Tiwari

Bottom Utility Tray

Kosher freshwipes Bottom Utility Tray is created with partitioned spaces to keep things that are frequently needed in the respective places where Kosher freshwipes are used in pull-a-pieces boxes.

Kosher freshwipes Bottom Utility Tray is good to keep things that are frequently needed but are often misplaced.

At office desks, Kosher freshwipes Bottom Utility Tray is good to keep sundry items such as; pen, pencil, scale etc. At home, depending on individual needs, it is good to keep small but much needed items which keep missing due to being misplaced.

Kosher freshwipes Bottom Utility Tray is made to serve as a fit socket for the Kosher freshwipes pull-a-piece boxes. The box sits fine on the Bottom Utility Tray and is easy to lift off it to fetch things from it.

Kosher freshwipes Bottom Utility Tray is durable and can be used with new Kosher freshwipes pull-a-piece boxes.

Kosher Bamboo (insert design)

Kosher Bamboo is not merely a brand extension. It is a larger project initiated with a small set of mainline tissue products – Large napkins, Personal hygiene tissues in pull-a-piece boxes and Restroom rolls – all made from all virgin and all and only bamboo pulp.

As a growing and responsible corporate, we intend to ascertain the virtues of Bamboo in exploring the feasibility and the advantages for progressively adopting bamboo as the primary and larger source for making personal hygiene tissue products. While bamboo pulp does exceed conventional wood pulp on the tissue characteristics; of water absorption, softness and functionality, the objective of the project

is to assess the larger environment and economic benefits that can be derived and the ideal model of operation to be able realize that in a large measure. In pursuing our study we intend to partner with befitting agriculture institutes and knowledgeable minds.

Beyond superfine tissue Kosher Bamboo provides consumers with satisfaction; of sustainable consumption, enabling environment conservation, of belongingness to distinct class and a good sense of prestige.

We hope to construct altogether a new industry sector in India.
